

What is algorithm and flowchart? (in your own words)

Representing a process in a step-by-step manner to solve a problem or complete a task is called an **algorithm**.

Realtime Example:

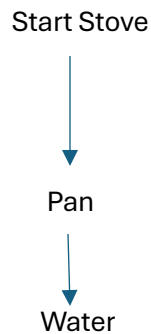

1. Brewing Coffee
2. Boiling Water

Flowchart:

Virtual Representation of a process in diagrammatic manner is called Flowchart.

Realtime Example:

1. Boiling Water

Mention different platforms to write java programs?

- Local CMD
- VS Code
- Anaconda
- Programiz

Hello World Code

```
public class test {  
  
    public static void main(String[] args) {  
        System.out.println("Hello, World! from gani");  
    }  
}
```
